

Thanita Titinunt

Born and raised in Thailand, Thanita earned her Bachelor's Degree in Journalism and Mass Communications and continued on to complete her studies at Fact de Nante Universite', Nante France.

Abandoning a career in journalism to devote herself full time to painting while raising her two children, Thanita is primarily self-taught. Inspired by German Expressionism and Fauvism, a fascination with color is evident in her strikingly vibrant canvases. Thanita's work is largely comprised of nature's bounty and although her signature images are of stunning floral displays, sun drenched landscapes and ponds, she is also adept at figurative studies and abstractions.

Thanita's award winning paintings have been exhibited in solo and group shows throughout Connecticut and hang in private collections.
